## RUSSIAN PLAN TO CUT ARMS CAUSES CLASH

Informed Quarters Say U. S. Is Sure To Reject Soviet Proposal Concerning Atomic Weapons

### BRITISH OUTLINE VIEW

Lake Success, N. Y., Nov. 29.—(P)—Australia challenged Russia's army reduction proposal today with a demand for assurance that any system of United Nations controls and inspection would not be subject to veto by the Soviet Union and the other great powers.

Delegate Norman J. O. Makin, leading off the reaction to Soviet Foreign Minister V. M. Molotov's surprise agreement to international inspections, warned the 54-nation political committee that under present wording "the whole system of control could be made subject to the will of any permanent member of the Security Council." The permanent members are the United States, Britain, Russia, France and China.

Reiterating his country's opposition to use of the veto on matters concerning atomic energy, Makin made it clear that this condition also would have to cover any broader arms reduction program. Makin repeatedly asked Molotov for a clear explanation of the Russian proposal and cautioned that no steps should be taken to sidetrack or abolish the U. N. Atomic energy commission now working on how to control the bomb.

Denmark, Norway and Belgium quickly endorsed the principle of arms reduction. Denmark declared the Soviet initiative might prove to be the foundation stone of coming international agreement.

Sen. Tom Connally (D-Tex.) was scheduled to state the American position in general terms, but he was understood to feel a delicate balance could not be taken place until the Russian plan had been elaborated and clarified.

The British views were made clear yesterday by Sir Hartley Shawcross who declared the proposed system of controls and inspections "must not be affected by any veto." It appeared from his remarks that he referred to both atomic weapons and other armaments.

In view of the increase campaign of the small powers against the frequent use of the veto by Russia during the past months, it was regarded as certain that many of them would vigorously protest any attempt to extend this power into the field of disarmament controls.

Soviet Foreign Minister V. M. Molotov, in advancing yesterday his new proposals for international inspections and controls, did not mention the veto but he specified that his plan for separate "organs of inspection" on atomic weapons and other classes of weapons must come "within the framework of the security council."

This was interpreted as meaning that any action of the two commission would be subject to Security Council approval and that any of the five permanent members of the council would be able to block action by the veto.

If this interpretation is correct, it would extend to the whole field of arms reduction one of the major controversies which have prevented agreement in the atomic energy commission since it started work last June 14.

## BUSINESS ACTIVITY DENTED BY STRIKE

Pittsburgh, Nov. 29.—(P)—The first three days of the coal strike dented business activity last week in the Pittsburgh district, with the business index down to 188.5 percent of the 1935-39 average, the University of Pittsburgh reported last night. The index was 187.5 the previous week.

Decreases occurred in electric power, freight carloadings, and river traffic as well as coal production. Bituminous coal tonnage was down 40 percent from the previous week.

## Seniority Gives Democrats Choice of Capitol Hill Suites

Washington, Nov. 29.—(P)—In spite of their brand new \$1-to-45 majority, senate Republicans found themselves still playing second fiddle today when it came to a choice of offices on Capitol Hill.

Some of the GOP freshmen elected to their first terms November 5 were surprised when they learned Senator McKellar, the Tennessee Democrat, still had first pick.

A few were downright irritated to discover that Democrats, in fact, have 25 choices out of the first 30 suites.

## Nimrods Galore Will Take To Fields For Opening Of Deer Hunting Season Monday

Deer season opens in Pennsylvania next Monday, December 2nd, and, from all indications, one of the greatest red-coated armies ever to invade the state will be on the prowl. The kill is expected to be a large one and the sale of licenses betokens a huge outpouring of hunters.

One store here has sold to date 2456 resident licenses and over 200 non-resident licenses. This store expects to sell over 500 non-resident licenses before the season opens. The Chamber of Commerce lists contain close to 500 beds for visitors in various parts of the county. Hundreds have made reservations with families over the county whose names do not appear in the Chamber of Commerce list.

Don Finley, of the Sport Store, states that reports coming in are to the effect that the deer herd is large and in good shape. Many sportsmen make a trip to the Finley store to report and discuss the hunting season and they are unanimous in the opinion that the kill should be large. Mack's News Stand this year has also had licenses for sale and has sold a large number. A new sign was swung to the breeze at this store heralding its sports goods and other supplies. Both stores are headquarters for hunters and both have laid in stocks of ammunition, etc., for the hunters.

Warren county annually derives thousands of dollars from the visitors and it is urged that everyone make an effort to create good will for the city by giving out-of-town hunters the best information desired and to give courteous treatment in all things.

Sheffield, Kinzua, Tidoute and other towns in the county are all preparing for many visitors and Saturday night and Sunday hundreds of cars will roll into the county bearing camping and hunting paraphernalia.

County Treasurer William Simonson stated this morning that the treasurer's office at the court house will be open Saturday afternoon and part of Sunday to accommodate hunters who desire last-minute permits to hunt.

Prizes will be offered for hunters this year by the Finley store. Ten dollars will be paid for the first 200-pound deer brought to the store and \$5 for the first deer brought in.

## Plea of Immigrants Rejected By Court

Jerusalem, Nov. 29.—(P)—The Palestine government's high court rejected today an attempt to prevent deportation of nearly 4,000 uncertified Jewish immigrants to Cyprus, and it was announced officially that three British troops would leave immediately with the refugees.

Speculation arose that the court decision might cause underground violence, dormant for 10 days, to flare anew. A Jewish agency spokesman, denouncing the ruling as "legal absolutism," said it had caused rising tension in Palestine.

The Jewish Community Council in Jerusalem appealed to Jews to keep three minutes of silence at 3 p. m., halting all business and traffic, in sympathy with the deportees.

The court discharged a habeas corpus writ granted Monday to Jewish lawyers, who had filed an action demanding the Palestine government show cause why the refugees should be deported.

The Jews arrived off Palestine without immigration certificates aboard the rickety freighter Lochita.

## CHINESE GUERRILLAS ATTACK RAILPOINTS

Peiping, Nov. 29.—(P)—Large Communist guerrilla bands have attacked two key points along the Peiping-Tientsin railroad and have hit at another of the Peiping-Kupukow line, government reporters today said.

Nationalist defenses at Antze, 35 miles south of Peiping, reportedly were attacked by 4,000 Communists and were repulsed after a six-hour battle.

The Communist regiments were said to have struck at the government held bridge at Yangtun, 16 miles northwest of Tientsin, but official reports said the attackers failed to take or damage the span.

## NEW FIGHTING IS REPORTED IN EAST INDIES

Indonesian Republicans and Dutch Forces End Short-lived Truce in Long Revolution

### ASSUMES LARGE SCALE

Batavia, Java, Nov. 29.—(P)—Britain fulfilled today her pledge to withdraw all occupation forces from Indonesia before November 30, even while new fighting was reported to have broken out between Dutch forces and Indonesian Republican troops.

The last British and Indian soldiers of an army which once numbered 92,000 sailed this afternoon from Batavia and Padang, Sumatra. The British-officered Allied forces Netherlands East Indies command officially ceases to exist at midnight tonight.

The occupation, which began when a naval party landed Sept. 15, 1945, cost the British 600 killed, 1,220 wounded, 320 missing and 600 deserters. The troops disarmed and repatriated 270,000 Japanese and evacuated 110,000 Allied prisoners of war, internees and displaced persons.

The Indonesian-Dutch draft agreement which would finally end the Indonesian warfare and unite Indonesia and The Netherlands as partners is still awaiting ratification at The Hague. Cross accusations of true violations were made by Dutch and Indonesian military leaders as the British departed.

Lt. Gen. Siem Spoor, Dutch commander in chief, said that the military situation in the islands was "steadily deteriorating."

The Indonesian information ministry said hostilities, begun yesterday, were under way on all fronts and threatened to become large scale. Dutch tanks are moving toward Bekasi, 15 miles southeast of here, the announcement said, and the army of the Indonesian republic has cancelled all leaves.

The clashes were reported to have been touched off by Indonesian refusal to accept a Dutch army ruling allowing no Republican soldiers within two kilometers (about one and a quarter miles) of Allied perimeters.

A Dutch army spokesman, however, said that while the military situation in Java had gradually been deteriorating in the last two months there was no truth in the Indonesian reports that fighting had broken out on all fronts.

He said only the normal number of minor clashes had been reported in the last 24 hours and flatly denied the reports of fighting at Bekasi.

The Indonesian information ministry, in a communique issued after publication of the Dutch denial, formerly withdrew its earlier official statement that the Dutch had made an amphibious landing but affirmed its earlier report that small scale clashes had broken out along many Japanese perimeters and that Republican army leaves had been cancelled.

The reported renewal of hostilities came as the Hague government was preparing to submit the independence agreement for parliamentary approval.

This agreement, announced Nov. 12 and initiated three days later, recognizes the republic's de facto authority over Java, Sumatra and Madura and calls for establishment by Jan. 1, 1949, of a United States of Indonesia and a Dutch-Indonesian Union for joint handling of foreign relations, defense and, "as far as necessary," finance.

## BLAME DYNAMITE FOR DEATH OF AUTOIST

Kulpsville, Nov. 29.—(P)—Parts of a man's body were found scattered over a 200 yard area near a hole a short distance from a parked automobile, County James Gleason reported.

Gleason said the discovery was made yesterday by two hunters who found part of a trouser-covered leg in a field near here.

The county detective said an automobile operator's license issued to Benjamin Lefever, 31-year-old farmer who had been missing since Wednesday, was found on the torso.

Gleason said two unexploded sticks of dynamite found in the parked car, together with the yard-wide hole in front of the car, indicated the victim had been killed in a dynamite explosion.

## SUICIDES WHILE HUNTING

Ellwood City, Nov. 29.—(P)—Coroner T. F. Nugent reported James Harry Hogue, of New Castle, shot and killed himself yesterday while hunting in Wayne township woods. The coroner said Hogue, who was in his 50's, had been despondent. Among witnesses to the shooting were Chester and Lawrence Hogue, of Ellwood City. R. D. I. Brothers of the dead man.

## Bad News for John L.

Having failed in an attempt to serve papers on John L. Lewis in injunctive proceedings started by Virginia authorities to force cancellation of the soft coal strike, J. F. Moriarty, Alexandria deputy sergeant, tucks up a summons on the door of Lewis' home in Alexandria. The action is legally tantamount to person service of papers.

## Move On To Change Date For Primary

Harrisburg, Nov. 29.—(P)—The Pennsylvania legislature may be asked at its 1947 session, opening in January, to return the primary for local elections in odd-numbered years to its traditional fall date.

During peacetime, primaries in even-numbered years for general elections were held in the spring and those for municipal elections the following year were set for fall.

A spring primary date in even-numbered years is necessary to elect delegates to national conventions and to permit state-wide candidates to conduct extensive campaigns for local office.

However, the assembly during World War two fixed the primary date for both general and municipal elections in the spring to facilitate participation by Pennsylvanians in the armed services in both primaries and elections.

Under that change, the 1947 primary is set for June 17 but today the agriculture department will permit distillers and brewers to use more grain, and will remove limitations on the domestic distribution of flour.

The White House announcement attributed the move to the favorable grain supply and the shortage of transportation facilities for relief exports abroad.

The statement said Secretary Anderson is taking these actions today.

"1. Remove the limitation on the domestic distribution of flour. This limitation is now 85 percent of last year's monthly distribution."

"2. Permit brewers, for the quarter beginning Dec. 1, 1946, to use as much grain as in the corresponding months of 1945 and 1946 but retain the prohibition against their use of wheat and the limitation of the use of rice. (Currently brewers are allowed only 90 percent of the grain used last year.)"

"3. Permit distillers to use unlimited quantities of corn, barley, grade three but retain the prohibition against their use of wheat and the limitation on their use of rye."

The Greek government has repeatedly asserted the bands have been supplied from within Albania, Bulgaria and Yugoslavia.

(The Greek information office in London said Monday that a formal complaint would be made to the U. N. Security Council.)

Dispatches to Athens newspapers, meanwhile, said Greek troops had surrounded 250 guerrillas in the Souphli district near the Turkish frontier and that the second and 14th Greek divisions had taken several captives in a "major engagement" with a strong mountain band in the Larisa section.

## GIRL MASQUERADER IS SENT TO PRISON

Warwick, England, Nov. 29.—(P)—Ellen May Young, 26-year-old factory girl, began a nine months prison term today for masquerading as a man and marrying another girl. She had pleaded guilty to charges of "making a false declaration for the purpose of procuring marriage."

During her trial the prosecution said Miss Young "went through a form of marriage" last September with Irene May Palmer, also 26, a domestic servant. Miss Young said she married because the other girl threatened suicide unless a wedding took place.

## JUDGE CLAIMS UNION CHIEF IN EFFECT "PLEADED GUILTY" BY REFUSAL TO OBEY ORDER

Motion for Dismissal of Action Brought By Government Attorneys Is Dismissed By Federal Court Jurist Today

### FEDERAL ADMINISTRATOR TO BE FIRST WITNESS

Washington, Nov. 29.—(P)—Federal Judge T. Alan Goldsborough ordered John L. Lewis to trial on contempt charges today and upheld the court's right to enjoin a walkout in the soft coal mines despite federal anti-injunction laws.

Overruling Lewis' motion for dismissal of the contempt action brought by the government, Goldsborough declared:

"The Norris-La Guardia act did not and does not apply, and the court has the same rights as it had prior to passage of the Norris-La Guardia act."

Goldsborough said his court had the right to enjoin "a labor union which was about to do something against the good of the public and the union itself."

Lewis and his United Mine Workers contended that the Norris-La Guardia act, curbing the use of restraining orders and injunctions in labor disputes, nullified Goldsborough's restraining order of November 18 and was grounds for dismissal of the whole contempt of court action, saying Lewis had the right to ignore it.

Government attorneys, on the other hand, contended the law did not apply where the government itself was acting as operator of the 3,300 soft coal mines seized during another crippling strike last spring.

Goldsborough's ruling cut short a day and half of argument by attorneys for Lewis that the court lacked authority to restrain the UMW from terminating its government contract. This notice by Lewis was followed by a walkout of 400,000 miners.

"The court repeats," Goldsborough said, "that this proceeding was for the sole purpose of maintaining the status quo in this dispute."

Before handing down his decision, the judge had remarked that Lewis in effect had "pleaded guilty" to contempt by refusing to obey the court's order to keep the coal contract in force.

This was promptly challenged by one of Lewis' lawyers, T. C. Townsend, who said:

"He hasn't entered any plea of guilty, your honor."

After some argument over legal technicalities the judge ruled:

"The motion to discharge and vacate the motion is overruled."

He then called a five minute recess. Chief government counsel John F. Sonnett announced that the government was ready to present its first witness against Lewis—Navy Captain N. H. Collisson, federal coal mines administrator.

After the recess, court adjourned until 2:30 p. m.

In his statement leading up to dismissal of UMW motion, Goldsborough declared that the court had a right to enjoin "a labor union which was about to do something against the good of the public and the union itself."

Today's session opened with a renewed defense attempt to win dismissal of the contempt action against Lewis, who as before, sat with jaw upthrust, rarely speaking to his 10-man legal battery.

Through Attorney Edmund Burke, Lewis claimed the government's case actually is a criminal action instead of a civil proceeding, as designated, and therefore should be thrown out.

On this argument, too, the judge interrupted to say:

"The restraining order was not issued for the purpose of punishing a contempt of the Smith-Connally act, (which forbids strikes against the government), but for the purpose of letting the court decide whether the coal contract with the government could be terminated."

John L. Lewis arrived at federal court 15 minutes early today to watch the most stand trial on a contempt of court action growing out of the soft coal strike.

The United Mine Workers' president looked refreshed after a Thanksgiving day spent in seclusion. Stepping from his big limousine, he strode silently through a small crowd and entered the courtroom, where Federal Judge T. Alan Goldsborough had promised a

decision on his motion to dismiss the contempt case.

Navy Capt. N. H. Collisson, federal coal mines administrator, was on hand as a probable first witness for the government if the dismissal motion is denied.

As the paralyzing strike entered its ninth day, a rising tide of unemployment left at least 90,000 idio in other industries directly affected by the walkout, dimouts darkened cities in more than a score of states, and passenger service on coal-burning railroads was sharply curtailed.

Steel fabricators predicted wholesale layoffs idling 100,000 within a week in Pennsylvania, West Virginia and Ohio.

But reports from the coal fields indicated that the miners had not yet begun to dray in their belts. Turkey and duck graced most Thanksgiving day tables in Pennsylvania mining communities.

## Factory Robbed of Six Tons of Sugar

Philadelphia, Nov. 29.—(P)—A factory was robbed under pistol point today of six tons of sugar in a coal truck trailer from a chewing gum factory early today.

They would have gotten even more at the Frank H. Fleer Corporation had it not been for a trick by the watchman, 42-year-old Raymond Hall.

Six times at half hour intervals he was escorted to a watchman's courtyard box, pulling a signal which went to a protective agency. But in the excitement the thieves overlooked the 4:30 a. m. report.

Came a telephone call from the protective agency which Hall was forced to answer at pistol point. He said the hoodlums "don't get a connection." The thieves fled as police converged on the place.

## Mine Stores Being Closed In Kentucky

Whitesburg, Ky., Nov. 29.—(P)—Some stores owned by coal firms operating in the rich Elkhorn field surrounding this eastern Kentucky community were reported to be closing their doors today until the nine-day old contract dispute that has made 12,000 miners in the area idle is terminated.

A spokesman for the Elkhorn Collieries Co., announced that the firm's store in Farraday would be closed for the duration of the United Mine Workers' strike. A number of stores have been open only part-time since the first of the week. If the closing trend continued, it would work additional hardships on the miners, who in most previous walkouts have been extended credit by company stores.

At most operations the miners will receive their last pay for work done previous to the stoppage tomorrow. Some firms already have paid off.

## Traffic Accidents Claim 63 In Nation Over The Holiday

(By the Associated Press)

Traffic accidents cost the lives of at least 63 persons—more than the toll estimated by the National Safety Council—as the nation observed the Thanksgiving holiday yesterday. Violent deaths from miscellaneous causes caused total 13.

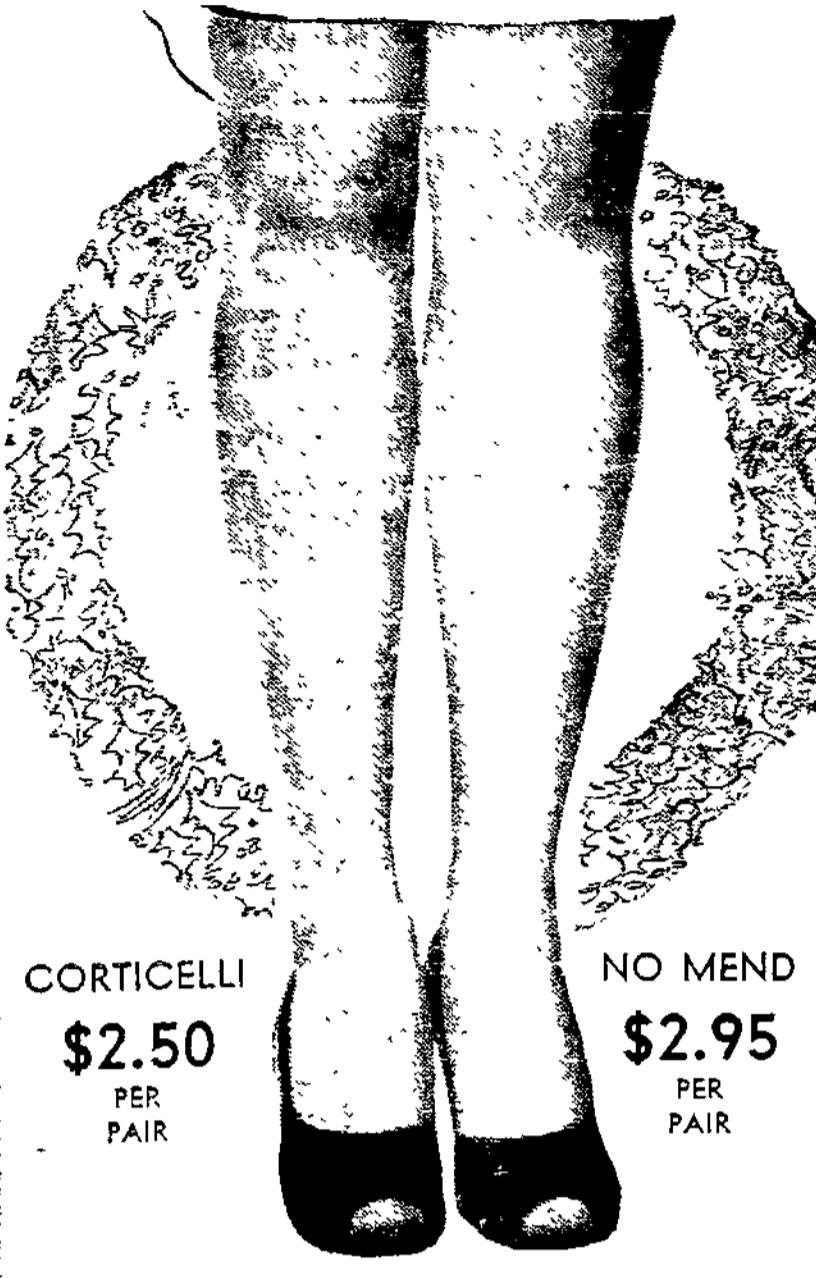

The Safety Council, which today reported 3,123 traffic fatalities in October and a total of 27,520 for the first 10 months in 1946, had estimated 50 persons would die in motor mishaps on the holiday. It said, however, that normally 110 persons are killed in traffic in a November Thursday, including deaths occurring later from injuries suffered that day.

California, Illinois and Michigan each reported five traffic deaths yesterday while four fatalities each were reported in Arizona, Florida, Georgia, New York and Ohio; three each in Indiana and Pennsylvania; two each in Colorado, Connecticut, Missouri and North Carolina, and one each in Iowa, Kansas, Maine, Maryland, Massachusetts, Minnesota, Mississippi, North Dakota, Oklahoma, Oregon, Tennessee, Texas, Virginia and Washington.

The Safety Council said that the traffic toll for the first 10 months this year was 25 percent higher than for the same period in 1945 and estimated that the fatalities for the entire year would approximate 34,000.

## Cornell Cooper Is Coming Back To The Outing Club

Cornell Cooper, who some months ago had the crowd at the Outing Club literally standing on their chairs yelling for "More" will be back at the club over the weekend. Cooper is an artist and his return engagement keeps him busy as everywhere, he appears they try to hold him over or get a return booking. He is a singer with a voice and the ability to put across some Boogie Woogie in a most approved manner. He not only sang the fuzzy wuzzie songs but his ballad singing roused the crowd.

Joan Collins, who has been pleasing crowds at the Pittsburgh night spots will also be featured on the bill with her dances. She is an inspiring dancer and her grace and beauty adds to the rhythmic sway of her body in some of the more aesthetic numbers.

Hank Whitehead completes the bill and his work is pantomimic comedy of which he is a leader. His ability to rouse laughs is remarkable and in one of the best Pittsburgh clubs he recently played five weeks in succession as the patrons simply doted on his style.

As usual there is no admission charge Friday evening but the charge is retained Saturday and Sunday nights.

Roseland at Recreation Center will hold its regular series of parties this weekend large crowds will attend. The club recently in the hands of decorators is spic and span and the patrons will enjoy the new beauty of the resort. Sam Brindis skillful mixologist at the club is scoring high with the patrons with his work and is a real added attraction. ## Kiwanis Club Is Planning Ladies' Night

Kiwanis Club is a firm believer in the axiom of established principle that a straight line is the shortest distance between two given points; therefore, when it wants to invite the ladies of Kiwanis to something special, it adopts the straightforward tactic of sending them a direct method, as opposed to the customary devious route of mailman to husband to pocket to oblivion.

The something special in this instance is the annual Ladies' Night dinner party to be held at the North Warren community house at 6:30 p. m. Tuesday, December 3.

The committee, which is headed by C. C. Arbogast, has planned a full evening of fun, with a program of entertainment to follow a fine dinner, and dancing to top of the evening.

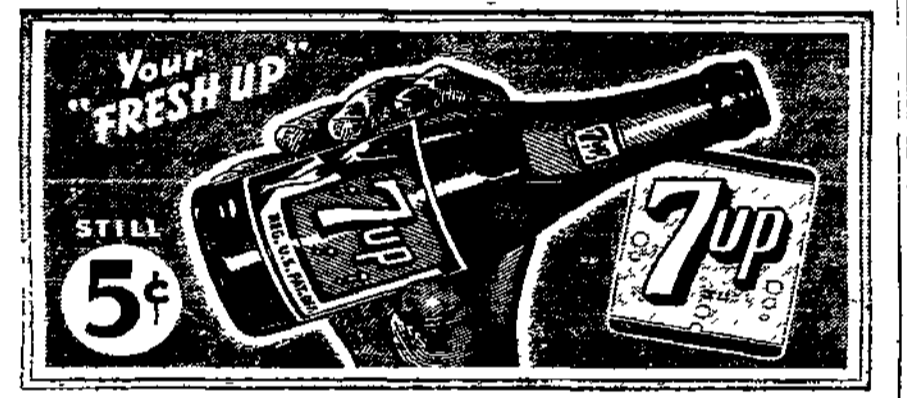

In regard to reservations for the affair, President H. L. Knappenberger reminds the ladies to remind their Kiwanians to get their tickets early.

## First Baptist Is Being Repaired

The First Baptist church on Market street is getting a complete renovation in its top section, it was learned this morning. Claude King, roofing contractor, is taking over the roofing job on the building while Bill Cook is the contractor who is taking over the masonwork on the top part.

The big stones on the top are being removed and new coping put in and the old bricks are being replaced where they are needed. There is not much work that really need be done and the church will be put in the best of condition in short order.

**Elk Memorial  
Service Open  
To The Public**

The Rev. Harold Knappenberger, pastor of Grace Methodist church, will be the speaker at the annual Memorial Services of Warren Lodge No. 223, B. P. O. Elks, in the auditorium of the club house Sunday afternoon at three o'clock. Officials in charge remind that the public is cordially invited to the exercises, and a special invitation is extended relatives and friends of deceased members.

Vocal numbers will be sung by Byron Swanson of the voice department of the Warren Conservatory of Music, and cornet solos will be played by Neil Swanson, one of the most accomplished musicians in the high school during the past year.

Lodge officers, with Ronald Frederick presiding as exalted ruler, will have charge of the impressive memorial ritual, during which tribute will be paid to twelve members who have passed away since the last Lodge of Sorority. They are: E. R. Beck, Homer E. Mead, William M. Cooney, R. C. Cochrane, Henry Brunke, C. S. Kirchartz, Dr. Lewis Ralph, Peter E. Nelson, PER, W. J. Phillips, Fred C. Grosch, T. A. Jenkins and Dr. F. G. Templeton.

**HOME FROM FACTORY**

William B. Duell, of the Hanna Motor Sales Company has returned home from Willow Run, Mich., where he has been attending the Kaiser-Frazer school for auto mechanics. He brought with him another Kaiser car which will be delivered to a local purchaser. Mr. Duell is enthusiastic over the Willow Run plant, the largest in the world covering 89 acres of ground. Scarcity of material is holding up some operations at the plant, as in other auto plants, and with a release of certain needed supplies the assembly lines will speed out cars in a record breaking manner. A picture of the Willow Run plant is now being shown in the window of the Hanna agency.

Too much cannot be told in advance concerning his magic powers, but the men folks are urged to hide their hats in case George decides to whip up a batch of cookies. Cards have been sent out by the Ladies' Night committee, but it is feared that some may have been missed and a cordial invitation is extended to all adults in the community. The time, eight o'clock, Monday night at the community house.

**PASTORS MEETING**

The regular meeting of the Warren County Ministerial Association will be held at 10:30 a. m. Monday at the YMCA.

**TO HEAR REPORT**

Rotary Club members, at their weekly luncheon-meeting on Monday at the YWCA, will hear Floyd W. Bathurst, principal of the high school, on the topic "The High School Evaluation Report".

**GAS RANGE FOR SCHOOL**

M. L. Satterlund has just completed the installation of a ten-burner, double-oven gas range in the North Warren school cafeteria, for the PTA of that place, which operates the lunch room. It is estimated that 100 lunches are served at noon each school day by members of the PTA.

**AT CONVENTION**

A convention of all youth of the Erie Episcopal Diocese is being held at St. Paul's Cathedral in Erie today, opening at eleven o'clock this morning. Eight boys and girls from the Youth Council of Trinity Memorial church are representing the local parish at this meeting. Frederic Printz, recently elected vice president of the Diocesan young people's organization, heads the delegation.

**COUNCIL MEETS MONDAY**

Monday evening the regular session of the City Solons will be held in the city hall and there promises to be a big grist of business to be ground. Reports will be given by several committees and President Earl Patchen is making an effort to have the committee thresh out their business in committee meetings and not on the floor of the Council Chamber. The idea is an excellent one and was followed here for a number of years thus saving much time at Councilmanic gatherings.

**REMODELING RINK**

John Evan, owner of the Forestview Roller Rink at Sheffield, has announced that work will start today in the remodeling of the roller skaters' haven. The rink will be closed on Friday nights starting tonight in order to furnish more time to work on the remodeling, but this, however, will not affect the regular skating nights of Tuesdays, Thursdays and Sundays. A new Persian rug for the lobby has been purchased and will soon be in place for the enjoyment of those who frequent the rink along with many other decided changes. The rink is the nicest in this section and Mr. Evan is trying to keep the place in tip-top shape for roller skating fans.

Wants make five bucks? The offer comes from George Bailey, the man who can do anything and will do just about that for the North Warren Civic Club Ladies' Night party at the community house on Monday evening.

George makes the standing offer of that amount to any person whose name he fails to remember. In the case of a lady, he guarantees to remember both her first and last name.

Mr. Bailey has many other accomplishments. Old time melodies and today's newest tunes are equally well played on his unique set of musical glasses equipped with resonators; and his violin renditions, a la Jack Benny, are said to be really something. Another sure fire hit is his mouthorgan.

### MR. LEWIS AND ONE WORLD

The first few days of John L. Lewis' coal strike showed how far toward actuality, in an economic sense, the conception of One World has progressed, says James Thrasher in an editorial written for NEA Service, Inc., and the Times-Mirror.

Because of an American work stoppage, all western Europe had to tighten its belt. Western European governments were forced to translate American industrial shutdowns and curtailed transportation in terms of less food, less raw material and less production within their own boundaries.

All this may have inflated Mr. Lewis' sense of personal importance even more. He could watch the effect of his personal strike, which already had lowered a pall of cold and gloom over his own country, spread like a paralysis to other lands, carrying with it a promise of hunger and discomfort. He could know that, as a direct consequence of his actions, Denmark had restored fuel rationing and the wartime blackout, cut gas, electricity and rail traffic.

Mr. Lewis' 400,000 miners might share their leader's view, if they could turn their thoughts and eyes from their immediate surroundings. Of course, it was not exactly their strike. There had been no complaints of suffering or threats of revolt as a prelude to the walkout. In accordance with Mr. Lewis' custom, they had not even been permitted to vote on the strike.

Yet they had followed their leader's bidding like 400,000 sheep, heedless of their responsibility to the government and the nation, heedless even of the direction in which they were being led. In doing so they had helped John L. Lewis to become one of the most important and unpopular men in the world today.

But it may be wondered if Mr. Lewis had weighed the possible effects of his economic action—effects which might persist however quickly his present strike is settled.

Western Europe is still politically chaotic, pulled this way and that by the powerful forces of the United States and the Soviet Union. It's people surely are watching both, weighing strengths and weaknesses, calculating the advantages and disadvantages of joining their economic and hence their political fortunes to totalitarian communism or capitalistic democracy.

Mr. Lewis' strike is not calculated to drive any hesitant country into our arms. Europeans can be forgiven for mistaking confused laws and awkward government tactics for fundamental weaknesses in our governmental system.

They have this evidence at hand: One man controls the economic destinies of a group of workers who comprise less than three-tenths of 1 per cent of America's population. Yet, with their backing, he can control America's industrial life in defiance of a government which, on more than one occasion, has demonstrated its inability to stop him.

The results of that defiance are being brought home to western Europeans in a tangible manner. How will they react? One cannot say with certainty. But it is reasonable to suppose that some would feel that they prefer a government which runs its country's industry and is able to enforce its orders, while others might prefer a capitalism with legal safeguards against labor's ever getting a commanding position.

Neither reaction could be to Mr. Lewis' advantage. He is not a Communist, and he certainly does not favor a curbing of labor's power anywhere. But it is possible that he might awake one day to find his periodic strikes had helped to drive part of the world away from American democracy and into a politico-economic alliance with totalitarianism of the right or left.

All indications seem to bear out previous predictions that the largest number of hunters ever recorded will be in the woods of the area for the deer season which opens Monday. They are already starting to trek to camps and by the first of the week a small army of red-garbed nimrods will be roaming the forests. Bullets from high-powered rifles will be flying thick and fast and, if past seasons furnish any sort of a criterion, there will be casualties. It behooves every hunter to use the utmost care to cut down the toll of injured and casualties. Self-preservation is not the first law for the deer hunter. He must make certain that he will not be responsible for some other sportsman being maimed or killed.

A check-up today reveals that the Thanksgiving holiday was observed in a quiet and orderly manner by folks of this community, with not even a bent fender to

## YEARS AGO IN WARREN

Interesting Items Taken From The Warren Evening Times

1926

A leaky chimney on the residence of Rollin Merritt, 356 Lincoln avenue, set fire to joist in the attic last night, and the fire department was called. The blaze was quickly extinguished, but the firemen waited until the chimney had burned out before returning to the station.

The foundation for the traffic signal in Times Square is now ready for the setting of the lights and the metal portion of the system has been completed by a local metal shop. Everything is in readiness for the light and it is supposed that it will be put in place by Street Commissioner Larson tomorrow.

County Treasurer White has issued 36 foreign hunting licenses since Saturday, a number being secured by hunters yesterday who were anxious to get into the woods to start out early this morning.

1936

Over forty men and boys attended the corporate communion at Trinity Memorial Episcopal church Sunday morning, at nine o'clock followed by breakfast in the parish house and a round table discussion with ten minute speeches delivered by Paul Schwartz, C. W. Schotzberger and S. L. Myer.

Recently the Lake Shore Visitor, a Catholic publication for the diocese of Erie, conducted a campaign for subscriptions with all the school children of the Erie district participating. In Warren county the first prize was awarded to Thomas Masterson, of the Holy Redeemer parish. Rebecca Hayes and Francis Lucia won second and third prizes for the St. Joseph's parish.

Two touchdowns in quick succession in the second period, both by Harry Rosequist, one of them being a 35 yard interception run, gave the HyVid Oil Gridders a 14-0 victory over the Struthers O. C. at Russell Field Sunday afternoon as the local wound up a brilliant campaign before a good-sized crowd, considering the winter-like weather.

## Here Are Main Points In Lewis' Fight With The Law

By JAMES MARLOW

Washington—(P)—Here are three main points in John L. Lewis' fight with the government to-day.

1. Does Lewis, or anyone, have to obey a federal judge's order? The theory is this. When he thinks it may be important to prevent unlawful injury or damage to one or more, the judge can tell you to do something, or not to do it.

2. You're supposed to obey, whether you think the judge is right or not in issuing the order. You get a chance to argue about it later. Lewis announced Nov. 15 his contract with the government to mine coal would end Nov. 20. This meant a walkout.

3. The government told the judge that Lewis had no right to cancel his contract and asked the judge to let him end it.

On Nov. 18 the judge issued a temporary order to Lewis not to do it. He said he had heard arguments from Lewis and the government Nov. 7, when the arguments were to be heard. Lewis wasn't to end his contract.

Lewis ignored the order, let the contract die Nov. 20. So the judge called him to court to explain why he had disobeyed. But—

2. Did the judge have any right to issue the order at all?

Federal judges—Under the Norris-Laguardia act of 1932—practically are forbidden to issue an order against a strike in a labor dispute.

So labor leaders say the judge was acting contrary to that act, telling Lewis not to end his contract or, in effect, telling the miners not to walk out.

The government argues the Norris-Laguardia act applies only to private employers' disputes with unions but nowhere says the government can not get such an order from a judge when it's having a labor dispute.

In this, case, the government says, it's the miners' employers because it's been running the mines under contract with Lewis since last May.

3. But did Lewis have a right to tear up his contract?

He says he does. He says either side—he or the government—can end it. The government says "no," that Lewis can't end it unless the government agrees. And the government doesn't agree.

The government, to prove that the contract must stand unchanged so long as the government wants it to, points to the first paragraph of its contract with Lewis. That paragraph says:

"This agreement is a covey for the period of government possession the terms and conditions of employment in respect to all mines in government possession."

But Lewis argues that under the old contracts he uses to make with the mine owners either side—he or the owners—could end a contract after notifying the other of the intention to do so.

And, he argues, his contract with the government says he can do the same thing—and it when he wants to—for his contract with

# Barbed International Issues Over Monarchy For Greece

By DEWITT MACKENZIE  
AP Foreign Affairs Analyst  
The British-backed Greek government's fight to maintain the monarchy in the face of heavy Communist onslaughts from various directions has reached a pitch which threatens to raise barbed international questions—specifically for the big three and in general for the whole United Nations.

Sources close to Premier Tsaldaris said Saturday that he hoped to present personally to the U. N. Security Council complaints about the alleged violation of the Greek frontier along the Albanian-Yugoslav-Bulgarian borders.

Yesterday, however, Premier Tsaldaris, after conferring with the king of the Hellenes, said he didn't "know when, where and if" a Greek complaint of border violations would be lodged with the U. N. He added that this hinged

on "developments in the course of evolution."

One wonders whether this means the premier has been advised by England to go slow with complaints, because Europe already is running a fever. But that's merely speculation on my part—based on the undoubted fact that the Balkans are seething and that an outbreak of war there would precipitate another global conflict.

You don't need a telescope to see what is going on there. Greece is the last of the countries on the Balkan peninsula not communized and under the control of Moscow. Greece's entire northern frontier lies up against Red territory—Albania, Yugoslavia and Bulgaria.

Romania came even more solidly into the Soviet ranks last week through her general election which was announced as having registered a Red majority.

Minister of War Dragoumis after visiting northern Greece charged that the disorders in Macedonia and western Thrace was "inspired and directed" by agents trained in Yugoslavia and moved into Greece by three routes: Through Albania, directly from Yugoslavia, and into Thrace through the mountainous area near our eastern frontier—that is, from Bulgaria.

There you have the makings of a first-class Balkan war. As a matter of fact, if General Dragoumis has his information straight, the war already is under way to all intents.

The big question of course is this: What attitude would Russia and England adopt if Greece should become embroiled in war with her Sovietized neighbors on the north? It is conceivable that both great powers might announce a hands-off policy, knowing full well that if either of them made a hostile move the third world war would be under way.

Would Britain stand for that? It's safe to say the answer to this question is being sought by the chancelleries of many nations. One thing seems very sure—that the Sovietized neighbors of Greece will gamble daringly in an effort to communize her.

Maxine Custer and John Ebbert Wed Thanksgiving Day

Miss Maxine Custer, daughter of Mr. and Mrs. Stuart F. Custer, 114 Seneca avenue, became the bride of John A. Ebbert, 3 Tremont street, son of Mr. and Mrs. C. A. Ebbert, Reno, on Thursday, November 28, at 2 p. m. in the First Evangelical United Brethren church. Rev. J. C. Wygant performed the double ring ceremony before an altar banked with lighted candles, ferns, palms, and mixed bouquets in fall colors.

Traditional wedding marches and appropriate selections were played by C. T. Prichard. Mrs. George Rhoades sang "Because" and "I Love You Truly".

The bride, given in marriage by her father, wore a dressmaker suit of teal blue, with black and white accessories and a corsage of white roses. For something old, the bride had her grandmother's wedding gloves.

Mrs. Donald Cole, of Pittsburgh, cousin of the bride and matron of honor, wore a gray suit, with black accessories and corsage of pink roses.

Robert Ebbert, of Oil City, was his brother's best man and ushers were Walter Ebbert, of Reno, another brother, and John Walker, of Bradford.

The bride's mother wore a wine colored suit, with gray and black accessories and corsage of yellow roses. The bridegroom's mother wore black accessories and Tallman rose corsage with rose color.

Following the ceremony, reception for relatives and the bridal party was held at the bride's home. Presiding at the table were Mrs. C. T. Prichard, sister of the bridegroom, and Miss Ann Brown.

After the reception, the couple left for a short wedding trip through West Virginia. For traveling, the bride chose a gray suit with black accessories.

The bride, a graduate of Warren High School and Hoff Business College, is employed with the Bell Telephone Company.

The bridegroom is a graduate of Rocky Grove High School and served in the U. S. Army, with 32 months in the European theatre, and is now employed by the Pennsylvania Gas Company.

Out of town relatives were present from Pittsburgh, Reno, Oil City, Venus, Bradford, Chautauque, N. Y. Among the Warren guests was the bride's grandfather, J. A. Gates.

The bride has been honored with pre-nuptial parties given by Mrs. C. A. Ebbert, Hazel Ebbert and Mrs. C. T. Prichard; Miss Ann Brown and Mrs. Walter Brown; Mrs. Zoma Lewis; Evangelical United Brethren choir; Mrs. Lottie Northrop and Mrs. George Rhoades; Win One Class; Mrs. David Levine; Mrs. Paul Mathis; Mrs. Fred Shattuck and Mrs. O. Box Office For Production Is Open Next Week

Mildred Schorman and the program committee for next week's "Play-time," the Warren Players' second major production of the season, announce that the box office will open on Monday, December 2. Box office will be open to 9 p. m. on Monday, Tuesday and Wednesday, and from 7:30 to 8:30 on Thursday and Friday, the nights of the play. Playgoers may still make reservations by mail order until the first of next week, but thereafter should apply directly to the box office to make sure of seat reservations.

Because the three one-act plays which comprise "Play-time" have been prepared concurrently with the course of dramatic instruction which had been a Players' studio project during the past six weeks, there may have been some impression that next week's production itself a studio undertaking open only open to the members of the Players.

The fact is that "Play-time" is not only open to the public, but is a major production in every sense of the word. Casts and working crews for each of the three plays have been busily engaged for weeks preparing for the final presentation, and rehearsals have already a level of smoothness not usually seen until the night before the curtain rises.

The decision to present three one-act plays was made by Players executives partly to introduce variety into the season's program and partly to employ in greater number the new and old talent which has swelled the Players' rolls since the end of the wartime personnel shortage. That this decision was a happy one is indicated by the enthusiasm which marks prediction about the success of "Play-time."

## Retail Price Of Milk To Be Hiked Sunday

Effective Sunday morning, December 1st, the retail price of milk in Warren and Warren County will increase 1c per quart. This advance is necessary to stop inroads being made by milk plants who sell their milk in metropolitan areas and can pay more money for milk by reason of their higher selling price. A Warren processor was forced to pay 65c more per hundred weight than that as established by the Pennsylvania Milk Control Board for milk purchased in October.

This advance will bring the price of milk in Warren up to the same level as the milk price in the surrounding towns. Because of the differential in the local and metropolitan markets the several milk companies in Warren have been losing farmer producers who are attracted to sell their milk to these higher markets.

Dairy farmers in Warren county are now receiving more money for their milk than at any time in the history of dairying. It is the sincere hope of the local milk companies that this new price will attract dairymen so that they again will ship their milk to Warren.

# Dragons Open Cage Season Tonight on Beaty Court

## Youngsvillers Expected To Sport a Fast and Furious Club In the 7:30 Meeting

Youngsville's Red and White cage players will come to Warren tonight all set and ready to go on the Beaty Junior High floor where they are scheduled to meet the Warren Dragons.

Even though Warren reached as high as the Western division last year's sweep, they cannot expect the Eagles to be a push over. The team that starts off Warren in basketball as well as football in most cases will foot a five that is the same as last year's starting lineup with one exception. Ronnie Thompson is lost through the graduation list, his place being taken by Bob Freeborough and the sixth letterman, Ronnie Mason, will be held in reserve, giving the Eagles a very potent squad.

The Eagles will be a "take" for nobody and the Dragons will have to get a fast start with their all-time entirely new line in order to stay on top. The Red and White have been having pre-season scrimmage games as well as regular practices in order to give them the polish that is usually picked up in the opening games before the season starts.

Dick Spencer and Ken Johnson will ramble at the forward posts for Youngsville and Art Woodard

and Bob Freeborough will stay on guard while Steve Smith does the board work and for the Dragons Dick Reed and Bud Nordire will do the guarding with Sig Decker probably at center. The Dragons in Fred Weigle, Buzz Crocker and also have some good replacements six-foot-four Lee Ellis with sharp shooting Gail Nelson on the prowl and the other Warren letterman Ed Wollaston, starting off after a full summer's complete rest after a knee operation to help keep the Dragons in the running.

Coch Amann's lads are a scrappy and unpredictable bunch of lads as shown in the football upset, most of the Youngsville team being on the tough basketball squad also.

Joe Massa's Dragons will not be on the push-over side, all being well practiced players, got much experience in games at the "Y" and also in the eighteen games played by last year's Jayvees. Season tickets have been on sale at \$3.00 for students and \$6.00 for adults, both well raised prices, but nevertheless, it is expected that there will be no room so spare in the gym that holds a capacity of 730 persons. It is believed that the congestion will be as bad as that of last year in this first game.

## Red Jackets Had Greatest Season In Long History

Taps sounded on another Red Jacket season and the uniforms have been sent to the cleaners preparatory to be stored for the winter. The headgear have been nestled and the footballs put in mothballs.

Despite the carping of some of the thorns the season was a great one. It was the best in the history of the Jackets and in the eleven games played they emerged with credit to themselves and to their backers. At the beginning of the season there were some who feared a team could not successfully function this year but Peter Fanaritis came forward and put up hard cash and the team got away to a good start. The Sports Boosters gave their blessing by allowing the use of their member roster as a mailing list for booster tickets. The game was a success financially and the Red Jackets were on the field and in no time Mr. Fanaritis was paid and money was in the bank. Fans can hail Mr. Fanaritis alone as an angel of the team. During the season over \$600 in equipment was purchased and all is paid for and the final whistle blew with money in the bank and all bills paid.

**RED JACKETS TO MEET ON SUNDAY**  
Every member of the Red Jacket football team is asked to be present for a meeting to be held at 3 p. m. Sunday at the Texas Lunch. All are to bring shoes or other equipment belonging to the club, to turn them in at this season.

During the season 11 games were played. Freddie Gehhart was the best team procurer and he opened the season with the Red Jacket a long organized and well coached eleven. Warren took them over by a score of 9 to 0 and the Vets pronounced the Jackets one of the best and finest team they ever played. Then came a tight game at Oil City with the Warren Merchants and the Jackets lost that one 7 to 3. Then came the game at the very heart of the Allegheny district, the Allegheny Indians. The Indians did their best war dances but were outplayed by the Jackets 20 to 0. That really was a ball game. Erie Vets, a fast outfit com-

posed of the best in Erie and adjacent territory next fell victims under the lights at Oil City by a score of 19 to 6. North Tonawanda which team has been a thorn in the side of the Red Jackets for years and who have consistently warmed the Jacket's jacket were beaten for the first time by a score of 7 to 0.

McKeesport's old Olympics this year playing under the sponsorship of the McKeesport YVW took the measure of the Jackets by a score of 13 to 6. This was one of the finest football games ever seen in Warren and the McKeesporters had a magnificent team. They paid high tribute to the Jackets and wanted to book them into McKeesport as an Armistice Day attraction. The Sharon Merchants were again played, this time in Warren, and the Jackets exploded a 19 to 0 victory in their faces. Their touted fast backfield was bottled and Warren ran at will.

Masontown Pals, one of the top notchers of the Allegheny County Conference came next and while Warren could not win neither did the Masontown boys score. It was a rip snortin' game and the crowd was given a real treat. The season closed with Glassport's famous Professionals. Glassport is yearly King of their district and take over the big boys of the Pittsburgh section while nobody's business. However they bowed to Warren 7 to 0.

And in all the Red Jackets played eleven games, lost two and tied one and a quick scanning of records of semi-pro teams in any of the Pittsburgh district towns show only one team with a record anything like it. Only the Creighton Tigers have a record as good and had it not been for an unkind seasonable weather forecast those two teams would have met. However the management of the Jackets were fearful of weather conditions and cancelled the game. Then the weatherman crossed them up and turned on the sun. But it was a smart move and with a heavy guarantee good business dictated a postponement. It is to be regretted as the game would have been a great climax to a season where Warren scored 170 points to 39 for all opponents. Hats off to Pete Fanaritis, Coach Ken Wisner, Treasurer

FOOTBALL RADIO  
New York, Nov. 29—(P)—Chirax for the networks' fall football season comes Saturday in two games, Army-Navy on a single network and Notre Dame-Southern California on three, at least in the closing periods.

The Great Lakes evaporate faster during fall and winter months than during other seasons.

## THE STRANGE CASE OF

# The Brewers Dilemma

or, how can an employer, who is 100% Union, with no Union disputes of any kind, have labor trouble?

The "local" breweries have a contract which holds good until April 1st, 1947—covering every man employed—with The Brewery Workers Union, affiliated with the C.I.O.

Under the Wagner Act the brewers must respect this contract—yet the A. F. of L. Teamsters Union insists we break the law, violate our contract and deal with their Union.

There is no sense, no logic, no basis in fact for this contest between these rival factions, for by so doing the A. F. of L. Teamsters not only attempt by force to compel the brewers to commit an illegal, unjustifiable act—but through un-American coercion, by threat of violence, picketing and secondary boycotting, they seek to force retailers and distributors to

cease handling products which they know are 100% Union-made.

Remember, the brewers have no quarrel with either Union—the brewers have no part in any controversy—yet the products of the three brewing companies in Pittsburgh are falsely labeled "Unfair".

For the information of the public, the beer distributors, hotel keepers, taverns and clubs, all out-of-state and in-state beer sold in Western Pennsylvania is produced by The United Brewery Workers, affiliated with the C. I. O. This includes the following local brands:

DUQUESNE E. & O. ROLLING ROCK  
FORT PITT DUTCH CLUB MOOSE  
OLD SHAY TECH TUBE CITY  
IRON CITY STONEY'S BLUE LABEL

## 300,000 Hunters Will Seek Deer in Pennsylvania Woods

More than 300,000 hunters are expected to pit their wits against the wily deer beginning Monday morning, December 2. Game officials say the animals are abundant enough in some sections that they are causing considerable damage to crops and orchards.

Bucks may be hunted statewide from December 1 to 15, inclusive. Sunday's excluded, except at the counties open to antlerless deer where bucks will be legal only the first week of the season. Shooting hours are from 7 a. m. to 5:00 p. m.

## INNOCENT

MR. SMITH

"Snippy" answers to customers? The "run-around"? The "let-em-wait" attitude? Not at Personal Finance Company! My customers have declared me Innocent!

And they say I'm not guilty either of saying "No" to them when they ask for something. Proof: 4 out of 5 who ask for a loan here—get it!

"Personal" makes loans from \$25 to \$250 on signature alone, or on furniture or auto. Friends, relatives or employer not notified. Usually I say "Yes" to loan requests in a hurry. But even when circumstances are unusual I try to find a way to work out a deal. That's why "Personal" is so often able to make loans that others cannot.

Like most people, I don't believe in unnecessary borrowing . . . but when a loan is needed or to your advantage, I'll be glad to say "Yes." Any time you need extra cash—see me, won't you? I'm at Personal Finance Co., 216 Liberty street, second floor, over Lester Shoe Store. Phone 285.

## New Process In Front In Volleyball

With the half-way mark in the Y.M.C.A. "Warm-up" Volleyball League passed last Wednesday night, it is interesting to take a look at the standings. Of the five teams, two of them have played 15 games while the others have played only 12, but as the score stands now the N. P. (New Process) team is out in front. The "M.C." and "F.B." are

battling it out for second place but tonight the "M.C." aggregation is scheduled to play the "F.B." team and should they win the match they will be in undisputed possession of second place—at least for a few days.

The scores of the teams in games won and lost follow:  
N. P.—11 won, 4 lost.  
M. C.—9 won, 3 lost.  
F. B.—10 won, 2 lost.  
Y. M.—2 won, 10 lost.  
O. K.—7 won, 14 lost.

Canada is the world's second largest exporting nation.

The surface area of the Great Lakes is a little larger than that of Illinois and Indiana combined.
